

How To Measure Your Ring Size

www.valdozeni.ie

Use a well-fitting ring you already own to judge your size by placing your ring over the diagrams below until you find a match. The diameter of your ring should be the same as the one in the diagram with the inside edges of both lining up together. The sizes listed as EU beneath the diagrams are suitable for Europe, the UK and Australia. The ones listed as US are suitable for America and Canada.

Ensure Your Guide Prints To Scale

Measure the lines below with a ruler to make sure you've printed an accurate guide. Before printing, please set the page size to A4 and the page scaling to "none" on your print dialog box.

Line should be 1 inch wide

Line should be 50 millimeters wide

Ring Sizer Guide

Valdo Zeni Ring Sizes

The ring sizes that we have in stock for each style of ring are listed on the product pages under the quantity box. Please select a ring size before proceeding to the cart. Our rings are EU sizes.
